CD-R, CD-RW and MP3 Playback Capability

The GE DVD Player is capable of playing back not only audio CD's, but most CD-R (recordable) and CD-RW (rewritable) discs, depending on the conditions of the recording equipment or the disc itself.

Trilingual On-Screen Displays

English, French, or Spanish.

Compatible with Music CDs

The GE DVD Player is compatible with your current CD collection and offers similar playback features.

Convenience

Zoom Function—2x, 4x

Zoom allows the on-screen image to be increased 2x, 4x with the ability to pan left/right, up/down while in the zoom mode.

Display Dimming

Select between Bright, and Dim to adjust the brightness of the player's front panel display.

Parental Rating Control

The GE DVD Player gives studios the capability to put the control of movie viewing where it belongs—in parents' hands. It allows you to choose what is suitable for your child to see.⁶ And without a password, the rating control cannot be altered—great when adult supervision is not always possible.

Multi-Language/Subtitle Capability⁷

DVD discs can support up to eight different audio languages, 32 different subtitle tracks and closed captioning.
